Subject: RE: Protoco - Site Access Barriers and Extension of Deadline
Date: Thursday, April 01, 2021 5:37:00 PM

Hi Dave:

Thank you for confirming the Group's plan for the installation of access barriers.

EPA approves the Group's extension request to complete the site reconnaissance. EPA grants an extension of 60 days, or until June 3, 2021.

Thanks,
Andrea

Subject: Protoco - Site Access Barriers and Extension of Deadline

Hi Andrea:

Following up on our conversation last week, the Group has agreed to proceed with the installation of access barriers at the Protoco site. In consultation with Geosyntec, and as I mentioned last week, the Group proposes to install of a minimum of three traffic drums (similar to the photo below) that will be held together by a steel cable at the access points. The cable will be permanently attached to two steel posts installed with a concrete base on each side of the existing dirt road. The locations of the installation would include known access points #2 and #4 on the attached map. The Group is proceeding in order to accomplish the installation of the barriers along with the signs on 4/12 and 4/13.

In light of the above, please confirm that EPA will provide an extension of the current Site Reconnaissance deadline of April 4, 2021. As always, please do not hesitate to reach out with any questions or if you would otherwise like to discuss.

Plastic Drum with 6" EG or HI Stripes & Base

Thanks very much.

-Dave
